## SUMMARY

Highly motivated Frontend Developer with 2+ years of experience crafting pixel-perfect, responsive web interfaces that prioritize user experience (UX). Possesses a strong foundation in frontend principles while leveraging modern frameworks to deliver high-performance browser applications. Thrives in a collaborative environment. Eager to join a team where I can continuously learn, innovate, and contribute to impactful projects.

## PROFESSIONAL EXPERIENCE

### ALX Africa

Software Engineer Fellowship

Remote

November 2022 - January 2024

- Developed proficiency in front-end technologies such as HTML, CSS, JavaScript, and frameworks like React Js, enabling me to create visually appealing and user-centric web applications
- Gained expertise in software architecture principles, ensuring the development of scalable and maintainable applications.
- Deepened my knowledge of programming languages, particularly focusing on JavaScript for building dynamic and responsive user interfaces, while also gaining familiarity with Python.
- Obtained hands-on experience in version control using Git, which facilitated collaborative development and ensured code integrity, promoting seamless teamwork in various projects.

### Hitech Solutions

FrontEnd Engineer

Remote

May 2022 - November 2022

- Developed the Royal Grocery Shoppa platform, an e-commerce platform built with Next.js, React.js, and Tailwind CSS
- Designed a user-friendly and dynamic landing page to capture customer attention and promote key product offerings.
- Collaborated with the team to build reusable React js components following best practices.

### Sycamore NG

FrontEnd Engineer

Remote

November 2021 - April 2022

- Collaborated with internal and external teams, where I gathered requirements, and engineered solutions to meet evolving software needs.
- Leveraged JavaScript, Vue.js, and Tailwind CSS, where I developed a range of web applications with both functionality and user-friendly design.
- Utilized Agile principles to streamline project management, enhancing delivery tracking and development efficiency.

### Tech4Dev

Software Engineer Fellowship

Remote

March 2021 - March 2022

- Gained practical experience and expertise in various tech tools including HTML, CSS, JavaScript, React JS, SQL, and MySQL database
- Engaged in active collaboration with diverse teams, cultivating invaluable cross-functional partnerships
- Prioritized implementing responsive design principles by ensuring that our frontend platforms were optimized for viewing and interaction across applications thereby expanding our reach and accessibility.
